

ANNEX AL - SPECIAL TERMS AND CONDITIONS

This appendix only concerns the registration and administration of domain names with the ending .AL (second and third level), hereafter referred to as the “Extension”

In addition to the general terms and conditions CG-ND, the registration or use of a Domain Name in this Extension implies the acceptance and respect of these special terms and conditions CP-ND-AL.

If there is a conflict between the general terms and conditions CG-ND and these special terms and conditions, the present provisions take precedence.

The regulations laid down by the Trustee Authority and the Registry are subject to change. These changes, linked to the naming system for Extensions, are imposed by ICANN and the Registries in charge of this Extension and represent changes that are not beyond NETIM's control.

All terms employed in these special terms and conditions beginning with a capital letter are to be interpreted in compliance with the definition assigned to them in the general terms and conditions CG-ND.

CLAUSE 1: PRELIMINARY REMARK

Given that only local companies can get the registrar accreditation for the Extension, NETIM has signed a partnership with WebHost Sh.p.k Albania in order to provide, through an automated system, the registration and the management of domain names in this Extension.

.AL is the 2-Letter ISO Country Code of Albania.

CLAUSE 2: LEGAL FRAMEWORK

All Registrars of this Extension provided by the Registry are committed to the terms and conditions which can be consulted via the following link:

<http://www.akep.al/legjislacioni/rregullore> (in albanian).

The Client declares and guarantees that the Domain Name respects the rights of third-parties, all currently applicable laws as well as these terms and conditions which are integrated into **these special terms and conditions** by means of a hyper link to present special terms and conditions.

The Client is committed to bind his customers according to these regulations.

NETIM does not control and does not check beforehand that a Domain Name is used in accordance with these regulations. The fact that the Client can register a Domain Name with NETIM services does not pre-suppose its full compliance with these regulations and NETIM cannot be held responsible on these grounds.

CLAUSE 3: REGISTRATION CONDITIONS

There is no registration condition for this Extension.
