

# Destruction of a domain name

The advance destruction of a domain name can only be carried out in the event where the domain name needs to be deleted before its effective expiry.

I have taken note of the following:  
 - NETIM will not apply any fee for carrying out this operation  
 The destruction of a domain name does not give the owner any rights to any form of reimbursement or credit note.  
 The permanent destruction will be carried out by the domain name registry in accordance with the procedures in force.
